

## ▶ **GI Disease Panels**

RDL offers several panels of interest to the gastroenterologist. Our panels have been created to evaluate a number of gastroenterological diseases including infectious and autoimmune hepatitis (AIH) type 1 and AIH type 2, primary biliary cirrhosis, celiac disease, inflammatory bowel disease and sclerosing cholangitis.

### ▶ **Autoimmune Liver Disease Panel, Comprehensive**

- ANA by IFA
- Anti-Actin by EIA
- Anti-Soluble Liver Antigen by EIA
- P-ANCA by IFA
- Anti-Liver/Kidney Microsomal by EIA
- Anti-Mitochondrial M2 EP (MIT3) by EIA

### ▶ **Autoimmune Liver Disease Panel**

- ANA by IFA
- Anti-Mitochondrial M2 EP (MIT3) by EIA
- Anti-Liver/Kidney Microsomal by EIA
- Anti-Smooth Muscle by IFA

### ▶ **Hepatitis Panel I**

- Hepatitis B Surface Ag
- Hepatitis B Core Ab, IgM
- Hepatitis A Ab, IgM

### ▶ **Hepatitis Panel II**

- Hepatitis A Ab, IgM
- Hepatitis A Ab, Total
- Hepatitis B Core, IgM
- Hepatitis B Core, Total
- Hepatitis B Surface Ag
- Hepatitis B Surface Ab
- Hepatitis C Ab

### ▶ **Primary Biliary Cirrhosis Panel**

- Anti-Nuclear Ab by IFA
- Anti-Mitochondrial Ab by IFA
- Anti-Mitochondrial M2 EP (MIT3) by EIA
- Anti-gp210 Ab by EIA
- Anti-sp100 Ab by EIA

### ▶ **Celiac Disease Panel**

- Anti-Gliadin II Abs, IgA & IgG
- Anti-Endomysial Ab, IgA
- Anti-Reticulin Ab, IgA & IgG
- Tissue Transglutaminase Ab, IgA
- Total IgA

### ▶ **Inflammatory Bowel Disease Panel**

- Anti-Saccharomyces Cerevisiae Ab, IgG & IgM
- Antineutrophil Cytoplasmic Ab (Atypical P-ANCA)
